

Cam-Grid® 1.2

Cam-Grid® 1.2

- Narrow link profile allows for drop-in replacement and retrofits on existing units
- Available in both mesh overlay and rods-only construction.
- Operates as a traditional low-tension system with tension on the outside edge

Advantages

- Fully collapsible for easy cleaning
- Reduces energy costs due to greater load capacity in smaller systems
- Allows product loading from link to link
- Extended pitch provides excellent strength-to-weight ratio
- Most cost-effective solution for standard low-tension applications

BeltTechSpecs

- Belt Pitch: 1.2" (30.5mm)
- Turn Ratio: 1.6-1.99, 2.0-2.4 x belt width
- Tension rated for 200lbs. (90.7kg) turn, 400lbs. (181.4kg) straight with single weld. Double weld 300lbs. (136.1kg) turn, 600lbs. (272.1kg) straight
- Widths up to 48" (1219mm)
- Speeds up to 80fpm (24mpm)
- Material: T304SS

Cam-Grid® 1.2: The Most Adaptable Belt for Spiral Cage Systems
